

## NATALIE SCRIPT

NATALIE , an snobby suburban type enters the room with a seductive stride and not a care win the world.

NATALIE

Hey Doctor Wayne. How ya doin?

DR WAYNE

Hi Natalie. You just missed Surge'on.

NATALIE

(indifferent)

I'm sure I did. Let me apologize for him, cause I know he was in here complaining and talking your ear off for the whole time.

DR WAYNE

Well my job is to listen. So is there anything that you like to talk about?

NATALIE

Look around. This is my problem. The man I love is nowhere to be found.

DR WAYNE

He has a very strenuous job that takes up a lot of his time.

NATALIE

(with attitude)

And what about me? When do I get time? Yes we live in a nice house and have all of these things, but when do I get to have my husband?

DR WAYNE

Have you asked him that question?

NATALIE

Yes I've asked. Each time he finds a way to blame it on me. But I ain't trying to hear that shit. He's the problem!
